Non-reversible 400 VAC electromechanical gearmotor, with built-in D-PRO 500 control unit.

Powerful: ideal for automating large industrial gates.

Functionality and safety: programmable, with electromechanical brake to eliminate gate inertia. Self-ventilated motor to increase the work cycle.

Maximum durability and silent operation: metal and bronze gears.

Advanced: Tub satisfies all control needs thanks to the possibility of easily and precisely managing the various functions with the Pro-View programmer.

Practical: the lever release makes this operation easy and safe.
